Fixed Price Solutions - Residential

Fixed price solutions can be tailored to your requirements. If a utility does or does not require locating, or if only a certain area of a property such as a front or back yard needs locating, utilities can be partially or completely included or excluded from a solution. Contact to discuss.

	GST Exclusive	GST Inclusive
1. Single Utility Locate <ul style="list-style-type: none"> One pipe or cable located. I.e., a Telstra cable along the front boundary or a power cable between a house and a shed. Non-conductive utilities excluded.¹ 	\$218.18	\$240.00
2. Single Utility Locate & Map <ul style="list-style-type: none"> Add a surveyed plan of services to the above solution. 	\$409.09	\$450.00
3. Limited Residential Locate <ul style="list-style-type: none"> Residential property, less than 2 acres. Includes all metallic (electrically conductive) utilities. I.e., electric cables, non-fibre optic Telstra and communications cables, metallic gas & water pipes, and trace-wires. Non-conductive utilities excluded.¹ 	\$272.73	\$300.00
4. Limited Residential Locate and Map <ul style="list-style-type: none"> Add a surveyed plan of services to the above solution. 	\$545.45	\$600.00
5. Residential Locate \$750 <ul style="list-style-type: none"> Residential property, less than 2 acres. Includes Power, Telstra, NBN, Sewer, Storm Water, Water and Gas utilities.² Excludes pool filtration & irrigation water pipes. 	\$681.82	\$750.00
6. Residential Locate and Map \$1,100 <ul style="list-style-type: none"> Add a surveyed plan of services to the above solution. 	\$1000.00	\$1100.00

¹ Non-conductive utilities are those made from non-metallic materials such as Polyethylene (Poly) or PVC. Utilities commonly using these materials are Sewerage, Storm Water, Water & Direct Buried Fibre Optic.

² Utilities will be located as far as reasonably possible using a combination of locating methods including Electromagnetic, Inspection Camera's, Ground Penetrating Radar and Acoustic Locating tools.
